

# **GLOBAL FAITH ALLIED MINISTRIES**

**[gfalliedministries@gmail.com](mailto:gfalliedministries@gmail.com)**

## **Areas of integrity**

Integrity is the quality of being honest and trustworthy or a condition of being whole. When we become honest allowing our faith to flow to a higher level of integrity then we have a right to disciple our faith. Suiting to a level that will bring all things work together for those who seek His wisdom and righteousness. Five Areas have been considered as areas of integrity bringing out qualities and values to manage integrity.

## **The word of God**

When we humble ourselves before God the word visits our lives on regular basis to tell the truth of moving ahead with the word digging out resourceful materials to build our faith. The word of God is a working force in our everyday life making us confidence in the process of inheriting and sharing all what is part of Him. Having enough power to create spiritual conditions responsible for our success. It is through conditions of silence in spirit and obedience that we are able to draw near to Him, receiving more of His visitation to become subjects. When we become silent in spirit, the word and the Holy Spirit descend to clear up spiritual weaknesses, empowering us to do things just like Him.

From the very beginning, the installations of the word of God which is light in our lives has brought us deliverance from poverty, delivering many of us from darkness. Installing qualities and values to make us people who are obedient to His word. The word is resourceful, powerful to disciple our lives by managing grace and all faith materials deposited for pardoning. This draws our attention to the factor of using the word of God in every corner of our lives that we may achieve more in the journey of becoming real men of real destination. Our task is to turn obedient to the word of God that we may be wholly transformed for His perfect work. The spirit formed life settles to allow more of His power directing faith to bring out ideas of continuous attention to the word of God.

God uses His word to cultivate those areas in our lives which are impotent and unable to produce obedience. It is our prayer for the Light of God's word to add power to your faith, in a way to welcome the fullness of His glory in your life. The word rules the journey of our faith making more steps in faith to confirm His presence.

The beginning point to persuade God to introduce His word in your life is to read and digest His word making your faith to be induced with Him. Joshua was blessed when he digested His word, believed in Him until his faith was confirmed. When we turn to the word of God, He is willing to give us more spiritual values and qualities to manage integrity.

### **Oil Management**

It is important to know that when God wants to help us or to do corrections, He speaks out a word, or the exact problem for corrections. To manage oil of different opportunities and its maintenance in vessels is to manage opportunities and chances of time, places, resources or others to answer such things in life or needs God wanted to establish or form. God continues to demand obedience in managing such things He has put in our environment since they serve to build and host our faith. Sometimes we find challenges in life due to poor management of oil that God once dropped in our lives to cultivate and repair those areas He wanted to build but now in ruin. Opportunities in life to drive our faith could be finances, Holy Spirit, time, places, relationships are expected to be maximized for our success. We hope that God will give a clear observation of what He has put before us in the environment for consumption. This helps us to follow God's knowledge in managing oil or chances in the direction to manage properly avoiding lack and poor use of opportunities.

We need to know the purpose behind God allowing chances of time, finances, Holy Spirit which are capable of producing enough power to suit our faith to a higher level, creating increment and sufficiency. We need also to accept the idea of tithing to avoid our faith being less or unable to run our spiritual lives. When God commands, He also provide to those who do what He says. The oil it's self is both His presence and finances which enables us to run our faith, doing things according to power in us. Our

commitment is to follow Him that we may be blessed both spiritually and financially.

When God deals with our faith He brings us to places or environments which will yield chances or opportunities to answer our desires or needs of life. He has more power to direct our steps to things or people that corresponds with our faith. Managing oil is also managing all such things in our environment since they are generators of power to make our faith, faith that needs the physical world to host spiritual materials.

In continuous observations of the things God is doing in our midst, we believe that the interests of the Holy Spirit is to extend His power and favor to everyone even those members who have little or no faith. The purpose of God in the journey to be destined is to have everyone in good life regardless of our errors.

This brings a clear attention of managing opportunities of environments including people of all characters. When we manage just as according to the truth, opportunities in the environments or chances we manage more of His grace, presence for our increment and abundance. There are more chances for anyone to have enough oil in his life, more oil supply by His presence if we cling to the truth of tolerating, forgiving, having a prayer to bring everyone to the Light of God.

### **Purpose driven**

Purpose driven people are special people in the arena to bring out God's will to assist our faith in managing things as according to His knowledge of bringing all things together for unity. They are driven to have open eyes with a wide range of vision for missions to accomplish their goals. Attending to the purpose of protecting, preserving situations, interests in an attempt to attain the purpose of God's will to make things favorable and successful for us. This tells us to adopt qualities, values of love, concern,

tolerance and a prayerful mind to receive more grace in receiving our goals and desires. There is a special favor and an anointing to purpose driven people, listening, following God just like Joseph who believed in God and paid no attention to what was contrary to his faith.

How do we know that we are purpose driven? It starts with focusing and a call upon your life, when we focus or get to know the exact problem or need of God for the work or tasks ahead with an aim of accomplishing assignments. Then we turn independent, equipping ourselves with knowledge that we may achieve the purpose or the result of our observations. Independence and what we have seen attending to issues with a different approach.

Observing or getting to know the will, desires of God in particular areas, opens our sight to know more of the nature and size of the task as we continue to take our steps in managing such ideas or assignments. Bringing out the reality of the truth which the future should have. Purpose driven people will always focus to goal achievements employing time, knowledge and all what they have to facilitate those steps, becoming more ambitious and confident not lose their purpose or faith along the trend. When we come to know the purpose of our lives, assignments we are supposed to accomplish, then we are driven to collect more faith to close down such gaps and defend God's work or will. Purpose driven people are visionary and conscious about their callings. To assist as according to their visions, concentrate to goal achievements with an aim of preserving or saving. The quality of being purpose driven demands one's will and desire to fulfill the purpose and call upon his life.

## **Character**

When God calls you to become a man or a woman of great caliber, to help others or to make a difference in life you need to realize your character, abilities, God's call upon your life, responsibilities or purpose of life. Characters will always open your sight with a clear observation of the environment, tasks ahead, giving you a platform or a foundation on which decisions will be based. Our efforts to excel in the things of God should be driven by our characters which goes by some one's will to attend to issues differently with the purpose to defend the truth. There are those things in life which need to be provoked to produce answers as a result of arising in faith by character. Sometimes our slowness in receiving what belongs to us is hindered by little faith. But when we arise in faith by character there is grace and favor. After knowing the kind of character you have according to God's purpose in your life, pray to God to show you how to connect the life of your character with your calling and His protection to show up.

Characters must be improved by individuals according to the knowledge of experience and the word of God.

### **A character tells;**

- Behavior
- Reasoning
- Conduct
- Ability to produce results.

Obviously, characters are the ones to be conceived in life before attending to the purpose of life. Our attentions must be driven by characters to do things according to His word and commandments. This can also be achieved through knowing the truth about our callings and His will to do

things rightly. It is through your character that will make God to move on your side to bring a kind of life that you need in life.

### **Correcting weak areas**

If we are redundant in meeting requirements or using faith to correct weak areas which seem to be common spreading widely in our lives, we create a gap to lag behind, impotent in the things of God. When we divert from truth by errors or mistakes, we need to look around exactly what we have in the store or in faith enabling us to reduce the impact or effects of our errors through what we have in form of faith, power, knowledge or attitude. This gives us a platform to exercise our abilities to expose the best of what we are.

Disobedience in life began many years ago in the Garden of Eden when Adam and Eva turned away from God's instructions. God as a pioneer of everything went ahead to close the gap of lack in spirit when He met Abraham to prove that He can help humanity out of darkness. God can make us to recover from our errors if we accept to listen and follow His ways. Different people have different weaknesses and challenges but there are those areas which are common and regularly disturbs people. Sometimes weak areas in our lives are also areas which are not productive or fruit bearing, they lost faith on the way and now unable to produce obedience.

Generally, to correct weak areas we need to start with the major causes of errors or mistakes. Unrepentant heart, ungodly mind, uncontrolled tongue or poor way of seeing things. When we stick to God's word, we stand a chance to substitute what we have in our minds with the light of God's word. This enables us to correct our minds and follow God's ways. When our minds are fully immersed into the word of God, gradually forms a material of faith, power and His presence for protection and continuous

relationship with Him. We need to know that any sin committed has consequences. When we allow God to drop the light of His word in our minds, then we have accepted to be disciples of His word creating conditions of His energy to make us right people. Realizing those weaknesses or errors in our lives asking God to allow His spirit to build more facts about the truth we should have, our faith has come to a level of producing results to rule out evil or errors. What do we do if part of our faith is destroyed due to negligence concerning correcting weak areas? We need to get time to find out the remaining part of faith or what we have in terms of abilities, that little faith remaining as a light to signal to our spirit for extra attention to what God says about the recovery of our faith. There is hope for us to remain still for God is able to revive our faith even if we look to be impotent, weak He will take whichever opportunity to make us great again.
