Order of faith

Faith that ranges within prophetic influence, priesthood life and spiritual contents lies in the shadow that makes up the image of a human person. This also primarily referred to as integrated faith. Showing the three areas of faith in form of order of faith. The question would be who is a prophet, who is a priest and who is the Holy Spirit. Recently the idea is to accept faith given by our Lord Jesus Christ in its order of occurrence

The order maintains discipline to remain faithful in retaining spiritual values, concerns and responsibilities. The idea to unify the glory of the persons in the trinity is to become rooted in the word of God. The word provides the truth for us to remain in grace. This is also a condition of receiving full life through having all such benefits associated with grace from God the Father, the Son and the Holy Spirit. Standing as truth behind complete faith. In creation God has been accepting His creatures and the stages of the occurrence of our faith. His involvement in the events or demonstrated faith to occur symbolises His righteousness and relationship between the beginning and the end. For His arrangement in trinity, His forth coming in responsibilities and appearance of His presence is right. From the beginning until today God has laid the foundation of faith in reference to His Son Jesus Christ.

The nature of God allows Him to move or flow from one level of His possession and presence to another level in form of His Holy Spirit. This brings us to the fact that He appears orderly and rightly from time to time. His order of occurrence in arrangement is shown in trinity by who comes first and who comes last. God the father made an addition of His life, glory, will, in His Son Jesus Christ. Christ added His life in humanity as well as the Holy Spirit in man's advancement and anointing who has power and authority over issues and challenges.

When we provoke our faith to arise in using all parts of faith by the influence of His spirit, then we stand a chance to answer Prophetic life, faith from Priesthood life and spiritual deposits. The combination of this brings order in receiving total salvation leading to complete faith. Today's generation has tried to answer Prophetic life through our developments and following requirements, standards of real life of a Priest. This also requires faith to allow the Holy Spirit install spiritual materials to make the first, the second and third faith complete. Sometimes if we do not accept benefits and gifts from Trinity, we end up having leakages of faith in our lives. Leakages are weak areas in hosting spiritual life packed materials in your life. This life materials are

received through prayers, fasting, reading and digesting God's word. Being well packed in Spirit they are expected to be well accommodated and properly used. Since many people today are living under errors and mistakes faith in some believers can be troubled due to unfaithfulness of other people in the same environment.

At any one time when a person turns to Jesus Christ God provides a sample of faith in his life. The sample of faith is guided by the word of God and the leadership of the Holy Spirit. Leakages mainly starts with dark shadows troubling our faith due to lack of enough light of faith. Light which has to be deposited by the word of God and the Holy Spirit. Leakages can be controlled by respecting ideas of renewing our faith through accepting God given grace in our lives. God continues to speak to us by providing to our faith. He is a provider of many things to make our faith develop, increasing in knowledge of the word of God and to avoid the wastage of faith. To host faith deposited requires a spirit of discernment and knowledge of the word of God controlling retardations and dark shadows.

Aggressively, we need to rebuke such errors affecting our faith. Since weak areas in life like poor use of tongue encourage leakages and poor use of God given grace. When we develop in faith increasing in power, power propelling us to God's righteousness then we stand a chance to rule from the spiritual side of influence. This gives a chance to control errors by building up the vibrancy of the relationship He has with us. Overcoming leakages is to understand the requirements of prophetic life enabling your faith to accommodate the Spirit and faith in the body of Jesus Christ. Benefits we get from Trinity are given to us in order avoiding dark shadows. There are many things responsible for the outbreak of darkness. In many cases our faith is troubled due to those who were unfaithful to God, they accepted darkness, they accepted poor use of the tongue. We need power who is the Holy spirit to reverse pronounced curses and eliminate dark shadows for our freedom. Whenever the spirit leaks, due to poor accommodation of "Him", there is obstruction, and confusion. The best way to overcome the above problem is to build the life of the prophet as it is with a prophet to manage His presence. When God created humanity, He created man in His complete image. The idea to develop and renew faith brings light and obedience. We all know that prophetic life excels more in material things and priesthood life in words. Our endeavors to renew our faith on both sides should be considered more for our peace avoiding leakages of faith. God wants us to increase our faith as we continue to draw near to Him.

He is of that nature to depend on our faith for more miracles and great things in our midst. When we are favored by God to see and do things the way He wants them, then we are to pray, increase our faith in which powers to make us obey and follow what is right is obtained from that continuous grace. Faith being a substance of things hoped for enables us to acquire distance in possessing all things we need in life that we may be fully accepted and established in His Kingdom. God wants us to accept His beginnings, the way he does things in His Kingdom that He may carry out our salvation through its order of occurrence.

Characteristics of the Holy Spirit

The Holy Spirit is the third God in trinity. He takes the third position in creation.

He searches the heart of God. He quickens the heart of believer and confirms that you are a child of God. Before and after creation nothing happened without the involvement of the Holy Spirit.

He is of the greatest value standing before the Lord. Your salvation cannot be worked out without the Holy Spirit.

He is also alpha and omega.

He is glorious, long suffering.

The spirit holds back rebellion and disobedience in many cases.

He is pure and holy certainly also the believer.

He reveals all things about God.

He sets up standards

The spirit can exist in the inside of the believer, also outside (upon).

The Spirit is God who is always with God's creations including humanity.

He checks the believers' sanctuaries and all believer's belongings.

He raises the standard depending on man's advancements.

Fresh wine is the presence of God in your life brought about by the Spirit.

Faith which is entirely determined by duration will accommodate the Holy Spirit, which is fresh wine. Such kind of life by the Spirit in your life has to be protected and defended by obedience.

The Spirit is time conscious.

He is a peace maker where the spirit dwells there is peace and faith.

Integrated faith

To integrate is to unify, unite, or to bring together into a whole. Our faith has to be complete in a way that we respect both a priest and a prophet since they stand together for complete faith. Prophetic life is lead and spearheaded by the spirit as the priesthood life its foundation is by the word who is Jesus Christ. When your faith develops on both sides we say that your faith has been brought together or integrated for completion. We should come to the knowledge of knowing that material things or development is part of our journey in faith as they host the life of a prophet. Prophetic life was fully demonstrated before Christ who is the word and the high priest. The movement of faith on both sides is to embrace the truth behind complete faith from God the father who is the beginning of everything. Our development and prosperity is not a wastage of time, we should know that they are part of our faith hosting the body of Jesus. The truth behind complete faith shows that the body of Jesus Christ starts the priesthood life and the spirit manifests Himself through prophetic ways. Since we are in complete image of God of which is God the father, the son and the Holy Spirit when we come to Christ He gives us power to tell the story of unifying the truth on both sides that our faith and the glory of God the father may be complete. Many people have defined the term faith under different kinds of attentions. The way to know faith is also to accept that anything produced by humanity to work with God's faith allowing Him in His movements is also faith. This tells us to maintain the preservations and protections of what God has given us in life that life may continue and become more glorious through raising the standards required by the Spirit. It is quite important to know that part of our faith which is also prophetic changes together with man's advancement (development). Life that requires many factors for complete faith is received through our conduct and choices influenced by faith that changes together with times and seasons. Integrated faith enables us to equip ourselves with requirements needed to retain Spiritual values. Gaining momentum and quickness in receiving more faith for our righteousness.

Faith is also a gift.

Can be obtained from others

Can be shared

Increased

Preserved

Acquired

Transferred Protected

In the Old Testament God had made a covenant with the children of Israel to reflect a relationship He had with them.

The covenant was sealed with blood to confirm a Spiritual bonding between partners of the covenant. This also emphasized regular purifications by the Priest who had the work of leading people back to God. The activities of a Priest and his concentration was to make people straight and back to Him. God also inspired some members to stand as Prophets, living as Prophets making the move of God's presence real among people of Israel.

By the same people in the same land there was massive outbreak of the Holy Spirit from Prophet Moses and Prophet Elijah. Both Prophets explained the purpose of their calling with such a great impact on the people of Israel. Their power emerged from what they had physically demonstrating a full, real life of a Prophet. This confirmed the work of God's leadership, pardoning of sins and redemption to be part of the lives of people of Israel. Since the work of a Priest and the Lord's presence dwells in their midst. God is calling us to have faith that brings prophetic influence and Priesthood callings to meet the needs of God in handling and managing issues in today's current generation.

Through faith man's conduct is expected to shift from old ways to new life giving principles and behavior. Equipping our faith to maintain and excel in obedience, is to accept modern formal ways to confirm the update of our faith and mindset. The work of updating our mindsets through our faith acquiring more skills allows us to shift from lower systems or levels to higher systems. Christ being the founder of our faith emerged from the first level of which is God the father and reflected the righteousness of our faith.

Money.

Living in the life of lack and shortage damages our faith. But if our prophetic ways and submissive lives meet with what God has prepared for us, there is a kind of faith preserved to protect our lives from delays in receiving the fullness of grace. God is much eager and interested in increasing our finances with a continuous blessing to make us real and better in all ways.

Money is part of what God uses to carry out His work and the extension of His Kingdom. This tells us that it is part of Him and works as power to do things in His Kingdom. God wants us to develop quickly in Spirit as well as in finances through His word by planting seeds of faith to be blessed in the next coming seasons. Our faith must grow to a level of understanding the reason as to why Christ wants us to be planters or seed sowers. Seed sowers are commanded to be generous and good even to those who need favor and help in the manner to embrace God's knowledge and commandments in helping the needy. God's financial blessing are based on principles and obedience. He wants us to tithe and bless the poor for our open doors and abundance.

Arrangement

The distribution of all things in nature by the word of God, it's out flow goes by acquiring faith in its order of occurrence describing faith that the nature and its people should have in arrangement. Our ways, code of conduct, principles and styles are expected to follow the kind of faith received through series of acquiring prepared faith. Acquiring faith in its order of occurrence through obedience will always

Encourages and forms priesthood concentrations.

Regular visitation of God's word.

Leads to favor and acceptance.

Source of Joy and strength in our Lord Jesus Christ.

Arrangement appears in nature and its content, in prophetic ways and also in our normal lives. Any kind of arranged faith is a reflection of the glory and its order in arrangement. Our conduct through orders, customs and reputations ought to reflect, establish a kind of faith which allows the continuous out flow of the Holy Spirit from infinite into your orderly life.

The Spirit fills the vessels according to the positioning and arrangement of faith. Due to increased demand to survive in Spirit, requirements to host the Spirit increases. And also the need for ability to host the strength and power of output of the Holy Spirit increases. This brings us to the knowledge of knowing more of His ways accepting the truth behind containing and receiving more by conduct. Re-organize your faith according to God's word, pray about your expectations and accept that God can answer your prayers. The arranged faith will shine in its glory showing the category of our faith and the glory of our father. When we arrange and position our faith in a way to receive from the spirit, the spirit will show up to fill those vessels to increase more opportunities for us to receive more from Him.

Characteristics of anointing

He is the last phase of God's power in His last move.

He is pure.

He is working force of God.

He is not for personal interest but for the house, nation as well as worldwide.

He is error free and rules by integrity.

He is Holy and right.

He is prophetic in nature.

He does not isolate or discriminate but all things under submissions and commitment for unity.

He brings supernatural favor.

He takes the middle glory position.

He is always in transit to respect the idea of arrangement.

Standing right with God

We hope that we shall go with you in series of acquiring knowledge, finding out the truth behind possessing faith. Life requires accessing more information, using time properly and grouping yourself with members who have shifted to a level acquiring life which has all the requirements needed by the Spirit. Life will keep on shifting or suiting to a higher level through ground opportunities, economic opportunities and informative opportunities. Meaning that life is to attend and attain series of acquisitions with respect to time driven from Spiritual, economic, social and political climates of our environments.

Ground opportunities.

The first level to host Spiritual materials of your faith is the ground. Christ promised us to prepare places for believers who have accepted His work, since there are many places in His father's house.

The move of God with Abraham to the place now called Israel was to find a place suitable for God to start a level for His glory and help the rest of the world. The first step for Jesus to work in anyone's life is to find him a place where He can work better. Places are vital and protective to anyone under such God's work. Places are identified as centres of worship and operating areas of the Holy Spirit. We pray that God may give you victory over your economic situations that all may be granted to you according to His riches in heaven.

Economic opportunities.

God has a plan to bless your economic situations starting with the little you have. He loves and believes in people He wants to divert your lack to a blessing that will make other nations to join your success and praise Him for what He has done for you. Basically what we can say to you is to take a step of faith in using or setting out your faith into action, for any man to maintain his Spiritual and physical life must be economically blessed. Wealth and riches is Godly and required by the Spirit for stable faith. Harmful economies and slowness in development of an individual does not support the quickness of acquiring faith in its fullness. When God finds our faith on the way He bonds with it and He takes an advantage of participating in all things we do. Sometimes He influences or inspires our minds to take decision in direction of His will including locating and managing resources as wise men.

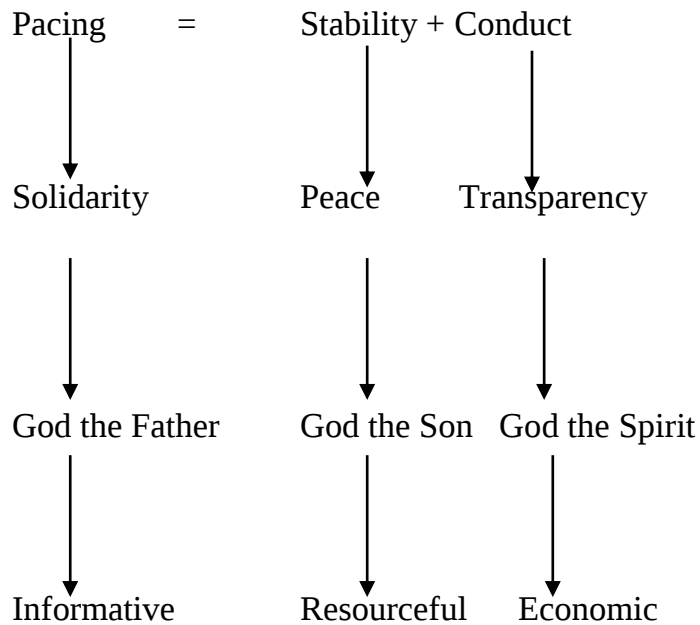

Resources is one of the most important faith we need to be stable and please God as they enable us to meet our daily needs.

Informative opportunities

After God has blessed Adam and Eva He also continued to teach them about what they should do in the Garden through His instructions. Reading and using the word of God is informative and contains a kind of faith that encourages and generates obedience to manage the journey of life and its righteousness. Find more time to find out the goodness of God His power to heal and His provisions of everything you need according to His love and ability to make your life better. Picking, accessing or using information has been a style of many characters and part of God's ways through which He can walk with you and talk to Him. Faith as a Spiritual material has other related components in service like academics, achievements, vision, and obedience to add value and make it successful. In my life in the season of His rewards to me I took time to listen, pray and install materials that God kept on dropping in my Spirit with the purpose of equipping my faith and increase in knowledge. This made me to be confident in life that I was able to understand the ways and tricks in darkness. God wants us to know more about Him, His ways and the way He does things in His Kingdom through forming relationship with Him. If one continues in word, prayer, seeking His influence through reading more of His word this will update our minds, rises Spiritual levels in our lives and bless us more with power to become partakers of His Kingdom.

As we continue to seek more of His ways, seeking secrets through prayers, equipping ourselves with more of His knowledge through His word. We turn favored to have His blessings and promises. Our blessings shall also increase, be granted depending on how much we communicate by finding more about Him through informative opportunities.

Semyalo's law of Stable faith

Given that

P = Pacing

S = Stability

C = Conduct

If:

$$p = s + c \text{ ————— i}$$

therefore

$$pa = sb + cc \text{ ————— ii}$$

Where

a, b and c are constants

Fivefold Ministries

The fivefold ministries is a complete strength, faith and power of God for His purpose and interest. Lack of the fivefold ministries in church today may lead to poor economy in a country, constant wars, disobedience and poverty.

The ministries are entirely controlled and served by the Holy Spirit depending on His anointing as one of last phase of the Holy Spirit in His movements.

The anointing also helps in construction of our faith that we may be fully accepted by God. It is more of His glory for His love to be shared by most of us through preaching the word of God to all creatures.

The purpose and interest of knowing the establishment of the fivefold ministries is to become partakers and ministers in God's work.

Advantageous conditions and characters propels the Holy Spirit to provide and encourage the establishment of the fivefold ministries in church today. He is in position of identifying, grouping and regrouping our faith in the fivefold ministries.

Ministry of teachers

The teaching ministry is symbolized as the most useful and the foundation of all other four ministries. Teachers in the ministry preserve fresh bread which is the word of God to prepare and equip the followers in the next coming season with an idea of renewing life and making faith stable.

There is a mandatory work in the hands of teachers to equip everyone in a way of making faith and truth to be part of the foundation of our salvation. We believe in the excellent and quality work done by teachers to make us winners who are empowered to stand for the truth. This is important because the foundation of our salvation is based on the truth revealed by the word managing our errors for stable faith. Ministers in the ministry are always perfect, lawful, orderly and productive. The kind of faith wrapped in the ministry is to move according to God's word and improve according to the truth based on God's word.

Ministers in the ministry are always

- Confident about the truth.

- They exist lawfully.

- They are ever right.

- They show up for corrections and reprimandations of errors and mistakes.

Ministry of Pastors

One time at ago, I happened to cope up with my young pastor who had finished his studies in a certain university.

The pastor had opened up a ministry after serving with his senior pastor few years ago. I was among and one of the young boys who was in the church serving with my pastor. My young pastor loved me so much during that time, he believed in me and I was always very close to him for more information and guidance. In the same ministry I served with diligence and carefulness with the purpose of making my faith to grow. I was committed and devoted to the extent of dealing with my pastor in different issues to build up my future.

I thank God for my faith. I also believe in Christ who changes times and seasons. The ministry of pastors calls up individuals who will respect the idea of knitting or putting back broken pieces and find a way of not letting God's work go unrepaired. In the state and conditions of Holy Communion between pastors and the word of God, they are able and expected to deliver maximum grace given and refresh our faith. In the context we have used the word "bread" to mean both bread and the word of God, wine to mean a clear prepared drink to refresh and build the body of Jesus Christ. The ministry particularly considers bread and wine as a key factor in renovation and maintenance of the believers' faith. The Spirit uses pastors to take care of the flocks pray and impart more faith to be confident. The idea of leadership in the ministry is revealed by the love of Christ who suffered, crucified, died and buried for our sins and redemption. Christ being humble and lowly in Spirit believes in accepting every man who is willing to receive His grace and love.

Being the high priest of everyone, our Lord Jesus Christ always brings our faith to stable states by His love. The foundation of the ministry is based on visional aspect of love.

Ministry of evangelists

Serving the Lord is honorable and glorious as He speaks about favor upon His servant and considerations to the one who is committed.

The gospel of Jesus Christ is the power to save and heal the broken hearted. Evangelism has a mandate to win souls from darkness to the light of God's word. He sends His word to heal and build up the faith of a believer. God has favored us in providing to us more opportunities of outreaches, seminars where signs, miracles and wonders have been happening. He promised to reveal His secrets to His prophets and it has been wonderful to all places where we have been visiting. He has done us good. Praise God for what He has done.

Sometimes members of evangelism encounter different challenges compared to other ministries, but still God has more plans and preparations of your footsteps to tell the gospel of Christ. Patience, love of people of all kinds, seeking God and His power on daily basis should be part of the life of an evangelist. The Spirit of evangelism is an important spirit in the world today. He takes the biggest part of God's presence among the fivefold ministries because there is maximum consumption and receiving of God's anointing to tolerate, forgive and assist other members of the same faith. The Spirit gathers more associates with quick answers and solutions to protect and defend the purpose. The Spirit of evangelism is above all with glorious anointing in the place to provide maximum help to all by the factor of resources. The ministry was designed for power backed by resources.

Ministry of prophets

Prophetic life sets up a goal of knowing God's secrets and accommodates the presence of the Holy Spirit in reality. Prophecy is also glorious and always sets up God's word in action, making a way to serve to those who are prophetic in the Spirit. A prophet is able to host the spirit maximally. He foretells, guide and provide necessities to others depending on available presence of the Holy Spirit. The presence of prophecy in our midst holds back insufficiency, rebellion and sets up members into the act of obedience and settlement, for the Lord's presence dwells in our midst.

It includes other members also who are capable of hosting the Spirit at any level. A prophet is as important as the Spirit and the Spirit is as important as a prophet.

Qualities of a clear prophetic life.

- There must be a clear separation.

- Able to answer and solve hardships.

- He lives authoritatively.

- A prophetic life answers all things.

A prophet will always gather himself to retain oil in vessel. This is the will of God for a prophet to renew his prophetic ways through dropping what is old and picking new faith materials for the incoming fresh anointing for new life. The ministry was designed to host backed by conduct.

Ministry of apostles

The word of God brings assistance in the areas where we are weak. Our faith is expected to grow at different stages and levels of life. Faith which is also light comes from what God said in His Holy Scriptures. The word of God does not separate from the truth but always at work to renovate and rehabilitate our faith. An apostolic Spirit, his influence and his work is highly favored and recognized by God. Apostolic ministries unites and strengthen other four ministries to correct and defend the foundation of God's word.

God continuously drops the anointing of the Holy Spirit for the work ahead of us to remain in truth and His perfect will. We remain in the truth and unlimited grace that we may be stable in love. The anointing in apostolic ministry holds back instabilities and multiplication of errors in the fivefold ministries.

He also seals up the secret of

Love

Honor

Purity

Glory

The ministry stands to adventure in bringing back broken pieces, rises the weak and build up our faith to the level needed by the Spirit.

There is continuous adventure and prayers until it is done, finished or complete on your side. The ministry was designed for findings backed by second chance.

Five great families

Cat family

Life in the Jungle

Cat family narrates a story or a description of what happens in the Jungle in comparison to faith. Showing that all creatures including the Jungle drives towards righteousness and glory. They have different symbolic representation of their faith reflections compared to their characters. Many animals live in game parks, game reserves, big forests and elsewhere in the world.

Different animals in the jungle move differently and their eating habits differ from one group to another depending on adaptations, character and responsibilities in the Jungle. Sometimes there is little knowledge concerning what is happening in the world in reference to life in the Jungle. Our interest lies in the cat family. Readers must understand that there is greatness in observing and comparing correspondences. A character has to reflect the secret behind nature as our Lord Jesus Christ who always confirms and strengthen our ambitions and faith from the beginning that all things are right and together leads us into abundant life. Animals like Cheetah, Leopard, Lion, Puma, Jaguar and a Cat where highly blessed by nature to reflect characters and braveness. This could also mean their constant speed, brightness to maintain their values in comparing.

Members in cat family

Members of this family are great men under super natural powers, they deal with open heaven operating powerfully and glorious. They are time conscious, predicted and expected to be error free.

They are quick, stable and survive by their words.

The word of God who is Jesus Christ is referred to as a Lion in the Holy Scriptures. Members of this family are very keen and stable on the ground and blesses the nature differently.

Lion

A lion is one of the carnivorous animals in the forest with possibilities to alert the Jungles about its glory, ability to rule and manage life in the Jungle by its voice. The strength and structure of a lion is seen and was built showing a character in handling and driving situations back to their stable states. A lion is in the image of Jesus Christ with His glory to manage our faith and love of people of all kinds. He checks the ground with throwings which are strong and powerful holding all things to distribute faith or lifegiving materials, allowing the progress of everyone. He is economically good and always at the centre of the Jungle showing the greatness of lineage of Jesus Christ as He believes in constant equal distribution of resources by the idea of managing faith rightly. The Jungle is always at peace because mr. lion is strong and highly believes in keeping distance ahead of inadequacy and insufficiency according to His work. Christ as a provider is able and willing to answer your prayers, to build up your faith and provide all things according to your requests.

Leopard

Leopard is a member of cat family who provides a greater percentage in maintaining life in the Jungle. The African slogan explains the greatness of Mr. Leopard in modulation of tropical type of climate to provide and extend essences as a back bencher. He owns the race and believes in Himself.

He checks the ground to absorb and expose the excellence of duration.

He is new every morning with substances to provide what is enough in the way of controlling from a distance. He exists to explain the goodness of love and togetherness. He is ever silent and His next move in the Jungle is totally unpredicted. The symbolic representation of life in the Jungle in reference to town life serves the secret of managing and responding in faith.

Mr. Leopard is of great importance to the point of complying with generational out comes to accept the truth hidden in self-expression and freedom of movement. Being a back bencher, He is always gentle and at rest responding to the factor of remaining freely and right.

Cheetah

Cheetah leads the Jungle with all His braveness to increase faith in the Jungle. Mr. Cheetah is quick and very fast in acquiring resources.

The kind of faith which ranges within the parameters of Cheetah shows the idea of setting for more to increase on what you have.

He shines and glitters with His glory of dazzling eyes full of grace and mercy to assist and comfort. He has a breath packed with vines and splendour to rule the journey of acquiring and possessing. He sees far and always distance ahead in love and knowledge to extend grace and faith to those who are willing to accept the love of God. He tops up and leads the Jungle by increment.

He is different from others as He moves very fast blessing more, adding more faith and value to each member for better life. His glittering appearance full of vines and splendour stirs up the Spirit of gladness. His regular, constant, and repeated endeavors to make what is right leads to proper distribution of resources given to preserve and maintain faith along the trend. Faith fullness, smartness and interest to assist using available oil to the next level is priority number one in His everyday life. He complies with the integrals of life for adjustments and stability in faith.

Cat

A cat believes that stability on the ground is the middle factor that rules all things in life. He checks the ground with simple touches to comply with the demands of the Jungle for right positioning that exposes the excellence of ground opportunity. He reflects the factors of simplicity in life.

He ranges the Jungle and ever at peace. In the Jungle, the cat always finds its ways in the channels of separate life to bring silence. Making life more attentive towards proper positioning and right jungling to avoid disturbances in maintaining the truth of ground opportunity. He is quiet and does not take part in differences, or unnecessary noise but always humble to manage steadiness and stability of acquired faith.

Adventure family

Believers in this family are hosters of the Spirit. They move around with God's presence to declare liberty to those in captive. They are also ministers who assist the Christian environments with miracles, breakthroughs and instant deliverances as they continue to serve in accordance with the Spirit of adventure. They are prophets to say, greatly honored and respected before God.

Solidarity family

Believers in this family setup paces for the outflow of original faith to the rest of the world. They are sensitive and obedient to manage and follow the direction and channels of God's movements to unify His glory.

King David served God in the line of his calling and physically demonstrated the purpose of his call as a leader by that time. He was a soldier and an able speaker holding a character and an idea of togetherness through his consultations from God. There was a moment of silence in the house of King David after a total revelation about who he was.

He believed in God and was always humbled before God.

Vision purposed

Believers in vision purposed families, their faith is totally assisted with special anointing designed for that reason. They work to assist believers in the next coming season that they may be spiritually and financially good.

Joseph accepted what he went through, his obedience and patience made him to pay no attention to what was contrary to his faith.

Five major laws governing nature

Introduction

The outlines of the five major laws governing nature are written down primarily to guide what humanity should have in mind concerning their will to behave, manage opportunities and the choices they make about their lives. Human conduct and his will to decide should correspond with what God has put before us in the environment, the nature, its output and people within the environment. Due to some work and responsibilities to complete our faith five major laws are introduced to guide human conduct for good and responsible life.

Law of accommodation

The value to understand requirements for pardoning or continuous grace is more important than to expect things which are out of store.

God continues to reconcile to man because in many ways we leave the truth and go wrong. During the formation of humanity, many values, ideologies, knowledge, relevancy was installed to provide a clear attention of what humanity should have consecutively along the trend. Humanity was able to provide extremes of faith materials for God to work in his life.

The purpose of enclosing or housing human life is to answer prophetic life and hold back the wastage of what God has deposited or given us in life.

Proper handling of faith accepts that accommodation of the body and material things is received through human advancement and development. We should note that under the parameters of prayers and obeying God's word, every man should accept that God is eager and willing to develop every one completely that no man should be in lack. The outflow of the Holy Spirit follows prophetic ways of conduct, arrangement and its buildup which answers many questions. Changes in times and seasons requires a clear response and a behavior according to its yieldings. It is through prophecy that one can protect, defend, preserve values, ability and character. Prophetic life and its requirements exists to accommodate God's Spirit and His presence. Poor accommodative facilities leads to exhaustion and wastage of faith. To accommodate is to protect and defend installations and inside contents that where deposited by God during conceptions.

It is a request to all humanity to receive and protect prophetic faith where demonstrations and guidance explains the idea of receiving and managing grace given. The truth to guide and protect God's presence is to attain ability and potential to acquire prosperity and good life by meeting the required standards of this world. Since advancement and development are prophetic and required by the Spirit. The body of Jesus Christ and all the works of the Holy Spirit must be fully accommodated. In understanding the truth, Prophetic understandings builds up prophecy to accommodate God in His full capacity. It is our prayer to everyone to have enough grace and power to meet the required standards for pardoning. Pardoning comes from God but it is a collection or combination of many factors for complete faith. The accepted way in performing a duty in the same faith is to dress before performance which is important in retaining faith materials.

Law of bread and wine

Breading is generally done to build up the body in preparation to preserve and protect faith in transit. In God's Kingdom bread was prepared to associate with God's communion and fellowship of the Holy Spirit. It is through right breading that we can understand some of God's hidden secrets and more knowledge concerning the truth. The idea to keep bread holy and separate should be part of our discipline regardless of situations making us unable to abide by the law. In preparation of the Lord's table, coming together to bread and wine is the moment of listening and hearing from companions.

Christ requires every believer to come to the knowledge of keeping bread holy, rules and regulations that bides faith and bread as the Lord reigns.

Breading rightly according to our faith builds up more strength to create a moment of listening from Him. Creating moments of silence or peace of mind to encourage more attention towards right thinking.

In the same way, fresh bread picks our requests or prayers of the mind and submit them to God through faith in the time of communion in the Spirit and fellowship of the Holy Spirit. The law encourages us to abide by the rules governing bread and wine.

- i) Shall keep bread Holy and separate.
- ii) Shall attend in preparation to take His flesh and Blood as a key factor to build intimacy and fellowship in Spirit.
- iii) Shall bread according to faith granted or given to accept continuous growth in Spirit and faith in transit.

- iv) Guided by faith and His word thou shall bread from all standards of bread to distinguish errors and right vision.

Law of utterance

Besides other arms of faith, God has been using the arm of utterance which is the word of God to form and create things. Many things can be formed or corrected through speaking and uttering.

When you speak it will be formed when you utter it shall be done. Sometimes we are challenged in life due to poor pronunciations made by those who were not faithful to God. Nevertheless, speaking Godly reverses poor pronunciations and produce powers to dominate errors and disobedience.

It is within our will to take care of what we have in mind what we speak and what we see because our success in receiving Spiritual gifts depends on our production. Your next level in Spirit most probably might depend on your tongue or what you speak. We are advised to utter rightly so that we can renovate and make the path of righteousness easier for our liberty and freedom in Spirit. Utterance is also powerful and authoritative. We verbal for adjustments and corrections. Accepting to become subject to God's kingdom and partakers of kingdom wealth is easy and peaceful by the knowledge of producing and ruling. The journey of faith is the life of managing and terminating challenges under the provisions of fresh wine and oil to meet the needs of life. Speaking over challenges also provides an opportunity to rule and resolve. The tongue has a right to reduce and eradicate pronounced curses through producing new words. It is designed to manage and allow incoming fresh anointing as a substance for us to feed on for life to come.

The starting point for our freedom and development in all parts of faith is utterance which are our words. Any uttered word whether bad or good has a product or a result. This tells us to direct our faith to produce more light through good utterance that our lives may be free from darkness. When we keep in His word and utter in favor to do good to others, we develop a ruling Spirit in the Spiritual life to direct our freedom and prosperity. The idea to utter rightly is to abide by the rules governing this which is obedience.

Law of application

There is power in the law of application to turn around anything for better results and manage faith according to the righteousness of God.

The law includes finding the right application and proper installation of faith.

The application of our faith in right channels leads to installation of the Spirit and His anointing. There are many ways to rule, reign and bring all things under obedience after attending to the idea and the secret of working and answering everything in faith. Many young men and women in the world today love to expose, demonstrate their values and talents. Your faith will continuously grow and increase in what the Lord has done in your life if there is right application and following right calling because God blesses according to righteousness. The combination and collection of the life packed materials from the need of the right application is followed by the desire to obey and please God in the manner of following the path of righteousness. Miracles shall continue in the world and also in your life today because God has a good mind about your life. This implies that the need of opportunity to install God's Spirit in right vessels is a question of taking the right decision in line with God's will and His love.

It is through right application that life and oil is preserved.

Additionally, the application of your faith in right channels holds back instabilities. The idea to behave right in application leads to shaking off the old styles and allows the installations of fresh wine in new containers.

It spear heads refreshments and renewal of one's spirit.

The outflow of God's knowledge and life from one level to another reflects the eternal succession and inheritance which needs righteousness.

It states that succession and heritage is Godly in preserving and assisting faith in transit. The act of application demands faith, obedience and oneness.

Application excels along the trend of going for more of ownership to increase the chances of understanding the purpose of working to earn a living as fresh wine and renewed faith. We apply for the continuous out flow of knowledge and the Holy Spirit from the sources of observations to declare the great works of the Holy Spirit who owns the idea of maintaining life in vessels.

We are requested to apply rightly to avoid collision of information, leading the Holy Spirit into right channels so that He can fill our lives with knowledge and faith. The continuous out flow of God's blessings are followed by applying rightly and increases oil supply in form of the Holy Spirit.

Law of conduct

God's manifestation and His out flow from the source to the end appears in stages and in right seasons. The order of trinity describes who comes first and who comes last in responsibilities through services and concerns to respect time and order of occurrence of different things. When God visited King

Solomon in the night He promised him continuous blessings if only he shall walk with integrity and up righteousness of the heart.

Through the channels of righteousness or good conduct shall we continually be blessed and retain God's word and His anointing in our lives.

What is conduct?

Conduct is also following the channels or path of righteousness in areas of behavior to act in the direction which makes other members to accept the idea of respecting and favoring one another. Life changes according to the environments as our abilities to create favoring conditions or to adjust the environments increases from one level of achievement to another. It is of a good idea to understand the importance and power behind our daily routines, orders, and customs. The state and conditions of a mindset in relation to God's word shows how much you can affect the environment in decisions for proper conduct. Conduct is also a life style instituted and directed by different things of different categories or kinds. It differ or changes depending on levels of achievements because opportunities and rights drives our steps and expectations to act otherwise. The father in heaven believes in the idea of maintaining and correcting errors to holdback disunity for everyone to benefit from rights and benefits of a society. Our prayers to build and manage our societies welcomes the grace and divine intervention of God the father who provides and blesses every act of obedience, continuously to expose His righteousness and freedom. The act to remain the same on daily basis reflects one's character which is also another faith that handles the work of retaining oil in vessels. This could be achieved through obedience.

God is calling us first to settle down with what we have so that we may be able to see and realize the abundance of good things in our environments. He provides more than we expect to answer our prayers. Ways to resorting and accepting conduct is through the provisions of God the father who provides everything that we need in life. Conduct is the result of going right and approved by the substance of water. Blessed is the African regions which use and experience freshy waters along river Nile full of peace which means the place of the Spirit. The act maintains our faith which increases regularly according to God's will in His power to maintain our life in peace.

The law protects, guides, retains upward direction which is going right and keeping upward faith. Life under the law of conduct continues to accept God's guidance until it is brighter in your faith, prayer and knowledge.

One should note that legal procedures in our everyday life are very important for proper conduct and equal distribution of rights in our homes, organizations,

societies and assemblies. Good results from any good work emerges from good performance under good conduct. Members who abide by the idea or the law shall observe the following guidelines.

- (i) Thou shall conform to normal daily routines, orders, and customs to reserve power, faith for the next reputation or season.
- (ii) Thou shall accept the reputation of an act or activity under possible means, approach or methods until the condition or situation to retain values for conduct is perfect and useful to others.
- (iii) Thou shall revise, observe to follow according to preparations and schedules before duties or work to avoid inconveniences.
- (iv) Under normal circumstances, you shall cling and abide by legal procedures, steps, or formats of any organization or society for proper conduct and easy running of the organization.
- (v) The conversion of attention to provide all necessary tools, equipments, materials to any kind of work, responsibilities to produce high quality work or good results should be priority number one.
- (vi) Thou shall observe and respect the aspect of proper time utility to manage duties and responsibilities.
- (vii) Changes in normal daily programs of any person or an organization due to insufficiency or other errors must be corrected in time for resumption.

Our last secrets

The purpose of keeping the light of faith is to receive power for obedience and keep God's righteousness. Our normal ways must learn how to please God through obeying and using His word to become partakers of His subjects of the truth. In our everyday life, it is quite encouraging to depend on God and believe in all His work in us from the time of receiving faith.

We are living in the life of full submission to God for the purpose of our additions. Simplicity in life needs right breeding or feeding physically and spiritually that our faith may be complete. This brings us to the stage of standing right with God being the bread of life. God's response to one's life as a continuous walk with Him accepts life and its tremendous series of peace formation, a substance consumed on daily basis under faith.

Our Journey of faith is expected to stand on the foundation of renewing our minds, Prophetic ways and our Spirits to become real, and perfect in truth. In social or relational lives, the work of increasing and renewing of our faith

started many year ago by God Himself through instructions, commandments, practices, and visitations as seen in the Holy Scriptures.

In this attention, we understand or receive requirements of prophetic ways, His concern, His response and fresh bread. Similarly, Priesthood concentrations are also ruled and formed by fresh bread, socially to manage communication and continuous intimacy in Holy Communion.

The Prophet and a priest are two different arms working together for the completion and fulfillment of our promises, salvation started by our Lord Jesus Christ. The idea of keeping bread Holy, renewing Prophetic ways and updating our mindsets by the word is obedience under faith.

A priest considers fresh bread for his work of reconciling, bringing lost faith back to God, creating peace and harmony among believers. Fresh bread together with communion through the word creates opportunities of becoming fresh again establishing stable faith for proper usability of grace given.

The work of a priest is also designed to maintain God's word in our midst, retaining Priesthood concentrations for more intimacy and pardoning of our sins. It is not good to ignore or undermine the idea of keeping bread Holy and separate. The wastage of our faith under misconduct, poor reasoning, and lack of knowledge concerning the truth is encouraged by inability to accept the collective work of God among ourselves and His interest to assist all.

The Author of this first edition is an interpreter, an observer, purpose driven as well as a businessman.

Mr. Semyalo David is an interpreter of issues and challenges in these last days.

The introductory phase to faith arena, explains the three great parts of faith.

The truth in science and technology.

The truth in reproduction.

The truth in ground opportunities.
